

TAKE A SMALL STEP TOWARDS A BETTER ENVIRONMENT

RR Kabel recognizes that environmental degradation and climate change that are serious global challenges. The Environment Policy of RR Kabel is framed to guide the organization in avoiding, minimizing, mitigating and monitoring its environmental impacts.

This Policy applies to RR Kabel Ltd. and each subsidiary, department, employee, officer, director, agent, and all persons or entities acting or purporting to act as a representative, advisor, or otherwise on its behalf.

RR KABEL ENVIRONMENT POLICY

The Environment Policy focuses on the following areas:

- Avoid and/or reduce any form of pollution from its activities.
- Optimize energy, water, and other natural resources consumption.
- Institutionalize environmental sustainability within the organization.

For achieving its policy objectives, RR KABEL will:

1. Comply with applicable environmental laws, regulations, and other obligations.
2. Eliminate the use of globally restricted hazardous chemicals in its products.
3. Endeavor to integrate principles of cleaner production for conserving energy and water.
4. Prioritise waste avoidance over waste segregation and disposal.
5. Optimize use of natural resources through material substitution, recycling, and reuse.
6. Adopt and maintain global best practices on carbon and energy management by minimizing greenhouse gas emissions in its operations.
7. Minimize as feasible and manage pollution generated in the form of air emissions, wastewater and waste in an environmentally sound manner through treatment, destruction, or disposal.
8. Endeavor to build a green supply chain by encouraging and supporting suppliers/vendors to adopt environmentally sound practices.
9. Raise awareness among employees for fulfilling their ecological responsibilities.
10. Establish, implement, and maintain necessary systems as per ISO 14001:2015 standard and build organizational capacity.
11. Set environmental targets for emissions, energy, water, and waste.
12. Continually improve the environmental performance & strengthen the Environmental Management System.
